Group II Coverage Criteria

MUST MEET ONE OF THE FOLLOWING

1. The beneficiary has multiple stage II pressure ulcers located on the trunk or pelvis. Patient has been on a comprehensive ulcer treatment program for at least the past month which has included the use of an appropriate group I support surface. The ulcers have worsened or remained the same over the past month.
2. The beneficiary has large or multiple stage III or IV pressure ulcers on the trunk or pelvis.
3. The beneficiary has recent myocutaneous flap or skin graft for a pressure ulcer on the trunk or pelvis (surgery within the past 60 days). The patient has been on a group II or III support surface immediately prior to a recent discharge from the hospital or nursing facility (discharge within the past 30 days).
